Tom G. Murphy, of the Helena Townsite company, came in from the Helena district last evening, and reports another strike on the Broken Hills property. The new discovery was made on the Whitmore lease, and the ledge was uncovered at a depth of about fifty feet. The ore body is about sixteen inches wide and assays taken from it go better than \$100 to the ton. The lease has had a force of seven men operating on it, and now that the pay dirt has been struck it is expected that a larger force will be added.
